6	10, 11	Nano and Advanced Materials Institute Ltd. (NAMI)	- Mr Daniel YU, Chief Executive Officer - Dr Peter Lee, Chief Technology Officer	www.nami.gov.hk	- nano technology - advanced materials	Established in 2006, NAMI is designated by the Innovation and Technology Commission as a Research and Development Centre for nanotechnology and advanced materials. NAMI undertakes and provides support for market-driven research in nanotechnology and advanced materials, and strives for commercialization of the technologies to promote the economic growth of Hong Kong as a knowledge-based economy. NAMI focuses research on five market sectors - sustainable energy, solid state lighting and display, construction/building materials, environmental technologies, bio and healthcare.	
7	12, 13, 14	Ka Shui International Holdings Ltd.	- Mr LEE Yuen Fat Chairman, Ka Shui International Holdings Limited (also Chairman, Hong Kong Federation of Innovative Technologies and Manufacturing Industries) - Ms Yvonne LI Marketing Supervisor, Ka Shui International Holdings Limited - Dr. WONG Cheong Yiu, Peter President, Ka Shui (USA) Inc.	www.kashui.com	- electronic/electrical components & accessories - vehicles, auto Parts - LED, plasma lighting	Founded in 1980, Ka Shui Group is a leading company specializing in magnesium, aluminum and zinc alloy die casting and plastic injection molding business with over 5,000 employees. It provides a variety of one-stop services to local and world renowned 3C (computer, communication, consumer electronics) products, automobile and household companies. These services include design conceptualization, mould design and building, die casting, plastic injection molding, CNC machining, surface treatment and supply chain management. The Group has been listed on the main board of The Hong Kong Stock Exchange since June 2007. In 2011, Ka Shui has taken a key strategic move to strengthen its global market coverage and sales network by setting up offices in the United States. The Group is also actively engaged in design, R&D and sales of plasma lighting in recent years.	
8	15, 16, 17	Jing Mei Group	- Mr. CHAN Wai Man, Raymond President & CEO (also Vice Chairman, HK Electroplating Merchants Association) - Ms Mandy CHAN Personal Assistant to President & CEO - Ms Jessica CHAN Trainee	http://www.jmi.com.hk/en/index.php	- plated and non plated plastic solutions, consumer products and automotive components.	Jing Mei is a vertically integrated surface finishing company. It provides one-stop surface finishing services in plastic components and products for both decorative and functional purposes. One-stop manufacturing services include product design and development, mould design and fabrication, plastic injection moulding, surface finishing to final product assembly (including packaging into trade display packages). Our goal is to pursue the latest in plastic and plating technology while leveraging low costs in our factories located in developing countries. We focus on the manufacturing of plated and non plated plastic solutions, consumer products and automotive components. Our 3,000 employees strive to continue the sustainable, stable growth that the company has enjoyed since its inception. Across three continents, our arrangement of global operations ensures customer connection and a fresh local perspective. Our network of logistical and engineering offices in China (Hong Kong and Guangdong Province), Switzerland (Zurich), USA (Chicago, Detroit, Louisville), Mexico (San Luis Potosi) offer attentive, timely customer service and logistical support.	
9	18	Fook Tin Group Holdings Limited	Dr. Sunny CHAI Managing Director (Chairman of the Hong Kong R&D Centre for Logistics and Supply Chain Management Enabling Technologies (LSCM R&D Centre); Board Member of Hong Kong Science & Technology Parks Corporation)	http://www.fooktin.com.hk/home.php	- OEM/ODM and OBM exporter specializes in R&D, manufacturing, marketing and distribution of quality electronic, healthcare and medical devices	Established in 1963, Fook Tin specializes in design, manufacturing, marketing and the global distribution of weighing instruments that are applicable to consumer, commercial, industrial, professional, medical sectors and electronic healthcare devices and professional magnitude sensors. We provide our customers full-services manufacturing solutions from product design to delivery consistently under a cost-effective and vertically integrated manufacturing system. Fook Tin is a multinational OEM/ODM and OBM exporter, as well as one of the world's leading weighing instrument manufacturers. We enjoy a customer base of over 500 international companies with coverage over 80 countries.	
10	19	Husky Inc.	Dr Tommy Liu Advisory Director (Chairman, Hong Kong Electrical Appliance Industries Association; Vice Chairman, Hong Kong Mold and Product Technology Association)	http://www.husky.co	- injection molding equipment	Husky Injection Molding Systems Ltd. is a leading supplier of injection molding equipment and services to the plastics industry. We design, manufacture and integrate the industry's most comprehensive range of injection molding equipment, including machines, molds, hot runners, auxiliaries and integrated systems. Our value-added services include preform development, factory planning, customer training, systems integration and complete asset management. With one of the broadest product lines in the industry, our equipment is used to produce a wide range of products for the beverage packaging, closures, thinwall packaging, medical, and consumer electronics markets. With more than 40 service and sales offices and employing approximately 4,000 people worldwide, Husky supports customers in over 100 countries. Our main manufacturing facilities are located in Canada, the United States, Luxembourg, Austria, Switzerland, China, India and the Czech Republic.	
11	20	Pino Alprandini (HK) Ltd.	Mr. CHONG Lung Sam Managing Director (also, Chairman, Hong Kong Metal Finishing Society)	www.pinhk.com	- electroplating and electroforming chemicals for watch and clock industries	Headquartered in Switzerland, Pino Alprandini has wealthy knowledge in chemical research, analysis and engineering, serving Jewellery, watch and plating industries. It supplies most kinds of electroplating solutions especially in hard gold, gold, silver, platinum, rhodium baths. It also provides special processing machines for jewellery and watch industries.	
12	21	Green Future Environmental Marketing Limited	- Ms. TSUI San Man, Elise CEO (also Vice Chairman, The Federation of Hong Kong Watch Trades & Industries)	www.greenfuture.com.hk	- Environmental protection: consultant and solutions; - Environmental equipment & products	Since 2011, Green Future Environmental Marketing Limited has been working as the nexus for environmental sustainable industries. Our global teams have extensive experience in international regulatory processes and possess intricate knowledge of key environmental management and needs. We are a consultant for environmental sustainability. We specialize in turn-key renewable energy with solar power systems, power stations, efficiency in lighting, hydrogen cleaning equipment and sourcing solutions for environmental and economic sustainability. We provide full service consultation to solar power stations in China, India, Italy and Mexico. We sell and provide energy management service for lighting products and we sell hydrogen cleaner for the automobile industry. We assist our customers and partners to create new programs, evaluate existing initiatives, make business practices more sustainable, and tackle a broad spectrum of environmental issues to create a better green future globally.	
13	22	Hong Kong R&D Centre for Logistics and Supply Chain Management Enabling Technologies (LSCM R&D Centre)	Mr Simon Wong Chief Executive Officer	www.lscm.hk	- Infrastructure Information Technology System - Internet-Of-Things (IoT) and RFID Technology - Location Base Service (LBS) Technology - Logistics and Supply Chain Analytics/ Applications - Supply Chain Security	The LSCM R&D Centre is funded by the Innovation and Technology Fund of the HKSAR Government. Since its inception, the Centre's mission has been to foster the development of core competencies in logistics and supply chain related technologies, and to facilitate the adoption of these technologies by various industries. The Centre is hosted by three leading universities in Hong Kong, namely the University of Hong Kong, the Chinese University of Hong Kong, and the Hong Kong University of Science and Technology. The establishment of the Centre marks the realisation of the concerted effort and enthusiasm on the part of the government, industry, academia and research institutes. The LSCM Centre undertakes the following roles and functions: 1. Conduct industry-oriented researches 2. Provide consulting and market intelligence services 3. Provide a platform for business matching and technology transfer 4. Facilitate intellectual property commercialisation	
14	23	Chartermate International Limited	Dr. Daniel CHAN Kin Kwok Founder and Managing Director (also, Vice Chairman of Surface Finishing Society)	www.chartermate.com	- Specialty Chemicals for Surface Finishing	Established in 1994, Chartermate imports electroplating additives from Europe, the United States, Japan and Korea. With over ten years of experiences in the market, we have expanded our company and we are carrying a variety of products in electroplating field such as ELIX from Switzerland, BLT from England. We have extended our service area from southern to northern part of the Chinese mainland. In 2002, we have set up a plant in Kunshan to serve Shanghai, Nanjing, Suzhou and other neighborhood areas. Chartermate provides completed line of imported technical electroplating additives for PCB and semi-conductor industries. We have good technical support team for trouble shooting. We can also design and custom-make any production process for our customers.	
15	24, 25	Equinix	- Eric HUI Director - Cloud and Service Provider Markets - Candice TSANG Marketing Manager, Hong Kong	http://www.equinix.hk	- data center	Equinix, Inc. (Nasdaq: EQIX) connects the world's leading businesses to their customers, employees and partners inside the most interconnected data centers. In 33 markets across five continents, Equinix is where companies come together to realize new opportunities and accelerate their business, IT and cloud strategies.
